

Update from MSC Group

Dear Clients & Service Providers

With the continued spread of COVID-19, we are very keen to ensure the health and wellbeing of our staff and clients whilst maintaining service levels for clients and investors.

We wish to advise all clients and service providers that we have implemented our business continuity plan which means that in the short to medium term we have changed the way we work. Our team members have been enabled to work from home, we will conduct meetings over video conferencing and have restricted all business travel.

Based on our assessments, we do not anticipate that these changes will impact the service levels provided to our clients and investors in the foreseeable future.

We understand that there could be difficult times ahead in this uncertain environment and we want to continue to maintain open and honest communication with each of our clients. We want you to know that our team is here to support you. At this time, we are increasing our resources to provide additional support and oversight and to assist you if needed.

If you have any queries or specific requests, please reach out to one of our team members.

We will continue to monitor the situation and provide updates as required.

Wishing you and your families strength and immunity.

Best Regards
Matthew Fletcher
